GPT HEALTHCARE LIMITED

Investor Presentation Q2 & H1FY27

Safe Harbour

This presentation and the accompanying slides (the "Presentation"), which have been prepared by **GPT Healthcare Limited** (the "Company"), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contractor binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded

Certain matters discussed in this Presentation may contain statements regarding the Company's market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guaranteeing of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company's ability to successfully implement its strategy, the Company's future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company's market preferences and its exposure to market risks, as well as other risks. The Company's actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third-party statements and projections.

Key Highlights of the Q2 & H1FY27

- ARPOB grew 7.1% YoY to ₹40721, reflecting improved realisations supported by a stronger clinical offering, a favourable speciality mix and enhanced operational efficiencies. Network occupancy in Q2FY27 has improved from 47.4% to 50.3% (59.8% excluding Raipur) indicating better utilisation of the hospital network.

- During H1 FY27, mature hospitals continued to demonstrate resilient operating performance, contributing ₹261.8 crore in revenue, ₹56.0 crore in EBITDA and ₹28.1 crore in PAT, with an EBITDA margin of approximately 21%.ILS Dum Dum remained the largest revenue contributor, reflecting its strong patient volumes and established clinical presence.

- ILS Raipur achieved NABH accreditation within its first year, performed its first TAVI procedure and liver transplant in Q2 FY27, and completed 11 renal transplants within a year.

- ILS Agartala Oncology program continues to gain strength with over 3200 radiation therapy procedures through its Linear Accelerator facility, and over 1000 PET scans in just over a year.

- ILS Salt Lake has crossed 850 robotic surgeries, while ILS Howrah, equipped with the MAKO robotic system, is nearing 100 robotic procedures.

- The upcoming 155-bed tertiary care hospital in Jamshedpur is progressing as planned and is expected to commence operations in March/April 2027.

- Building on its established presence in Eastern India, strong clinical capabilities and disciplined expansion strategy, the company is targeting long-term ROCE and ROE of approximately 25%, while evaluating additional greenfield expansion opportunities.

Company Overview

GPT Healthcare Limited is a fast-growing hospital platform in Eastern India, operating five, tertiary-care hospitals located within densely populated residential areas.

Designed around a proximity-based model, its hospitals offer the reassurance of advanced medical care almost at the doorstep—ensuring high accessibility for patients while enabling strong control over clinical quality, operating standards, and long-term returns on capital.

Led by Dr. Om Tantia, the company follows a disciplined, capital-efficient operating model with advanced capabilities across oncology, cardiology, renal transplants, and robotic surgeries.

With a clearly defined plan to scale to a 1,000-bed network by FY2027, supported by integrated diagnostics and a strong regional brand, GPT Healthcare is well positioned to capture rising healthcare demand, enhance profitability, and deliver sustained value to investors.

Hospital Portfolio

ILS Salt Lake Hospital

85-bed tertiary surgical hospital with 17 ICUs and 3 OTs, scaled from an 8-bed facility.

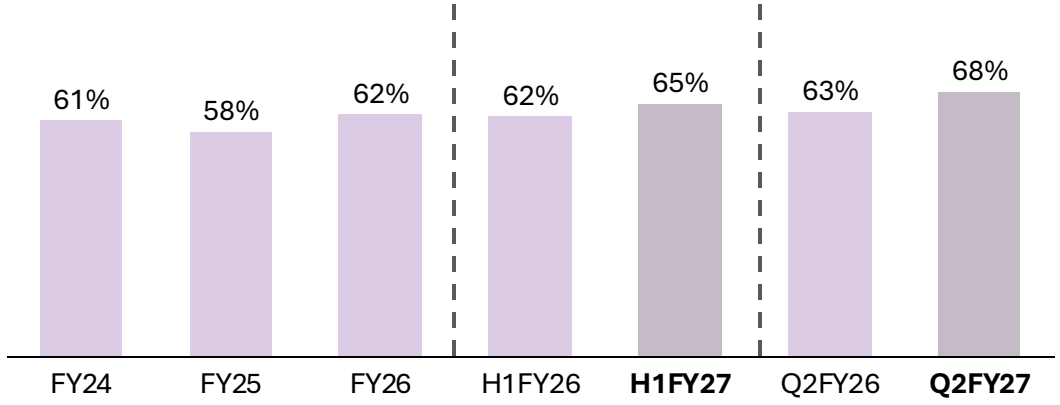

Clinical focus on robotic gastro and bariatric surgeries, enabling higher case complexity.

Specialised care offerings including diabetic foot care and advanced gastroenterology

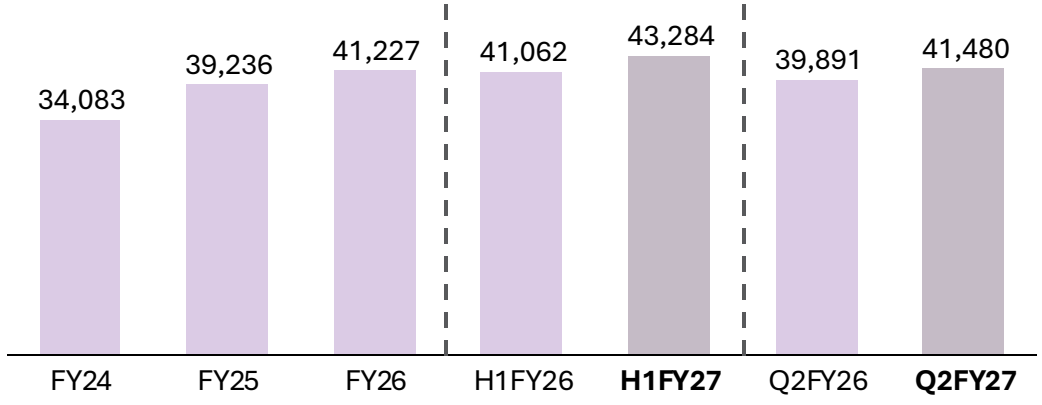

NBE-accredited Minimal Access Surgery department, serving as an FNB training centre

Bed Occupancy Rate (%)

ARPOB (INR per day)

ILS Agartala Hospital

205-bed ,corporate hospital with 66 ICUs, 8 OTs and 1 cath lab, offering large-scale critical care capacity

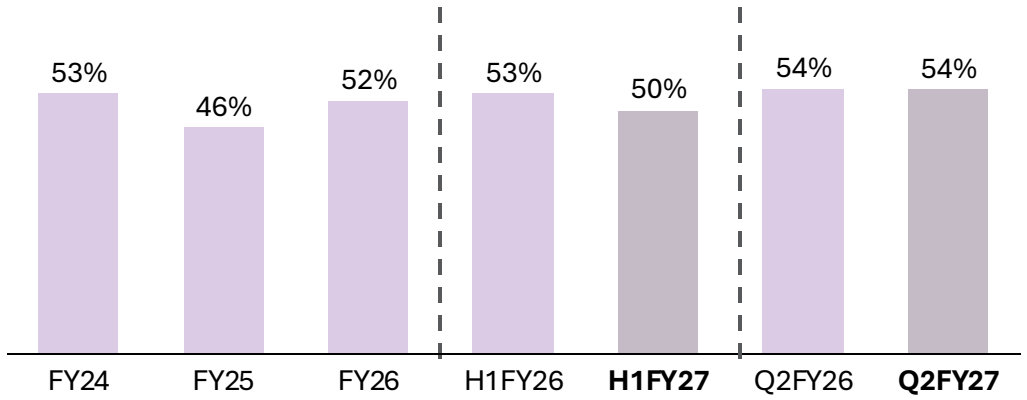

Clinical leadership in the state, with multiple first-in-Tripura procedures including leadless dual chamber implantation and complex vascular stenting

Only private hospital in Tripura accredited by both NABH and NABL, underscoring quality and compliance

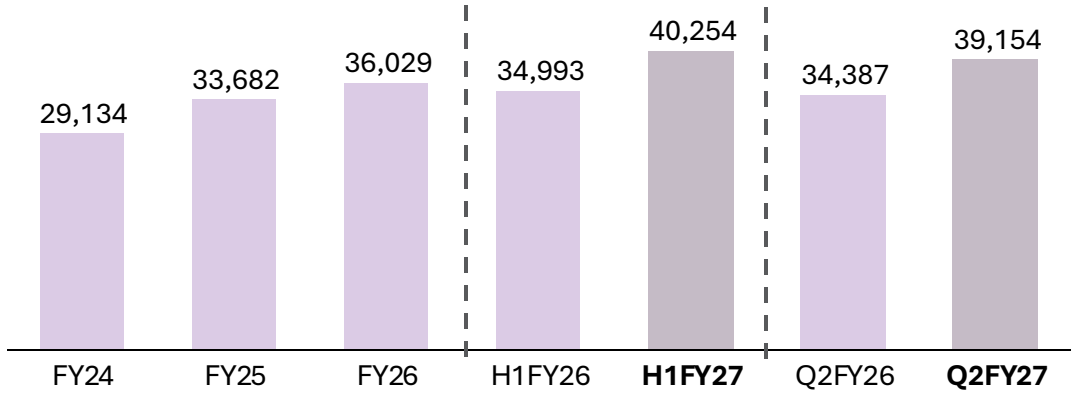

Has evolved into a medical value travel hub, attracting international patients. Among the few hospitals in the region with end-to-end oncology care, supported by LINAC technology

Bed Occupancy Rate (%)

ARPOB (INR per day)

ILS Dum Dum Hospital

155-bed, six-storey tertiary facility with strong focus on multispecialty and critical care delivery

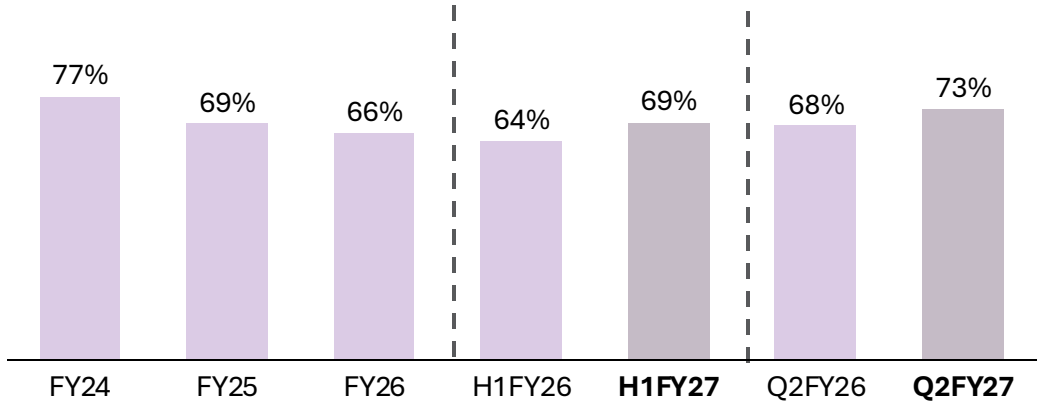

Licensed for renal transplants with upgraded gastroenterology services, forming the core specialty base

Known for renal and cardiac care, with respiratory ICU and cardiac surgery services to be launched shortly

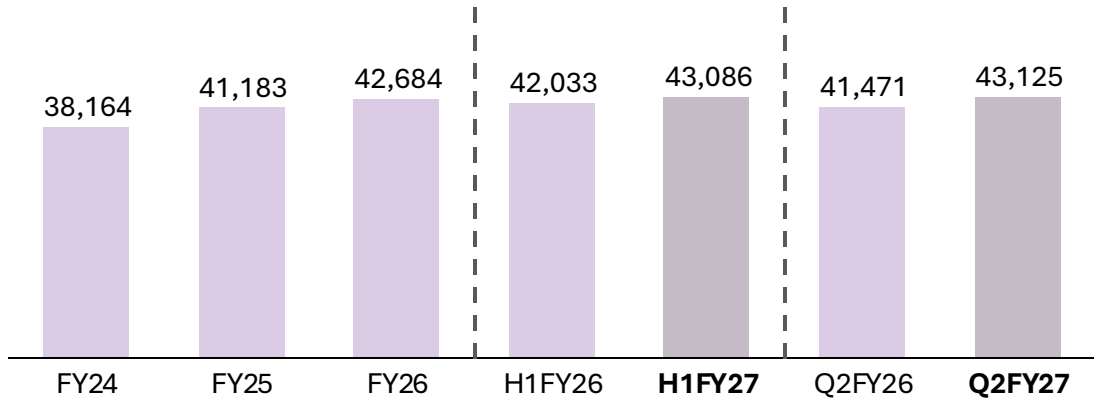

Advanced diagnostic capabilities including MRI, CT, digital X-ray, and 3D imaging for interventional neurology

Bed Occupancy Rate (%)

ARPOB (INR per day)

ILS Howrah Hospital

116 Bed, Multi-specialty tertiary care hospital in Howrah, located near Railway Station, with no competing hospital within a 5-km radius

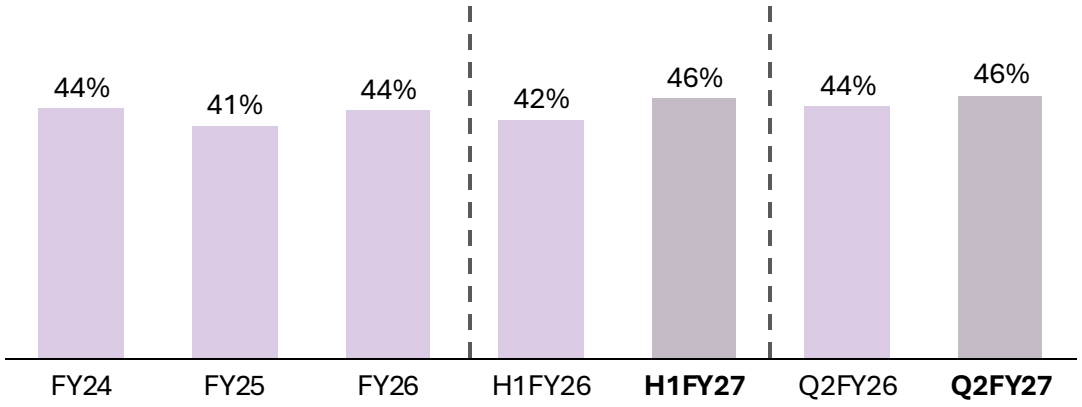

Launched robot-assisted orthopaedic surgery, including robotic knee replacements.

Emergency services upgraded, with capacity expanded from 2 to 10 beds, enhancing critical care readiness and patient throughput.

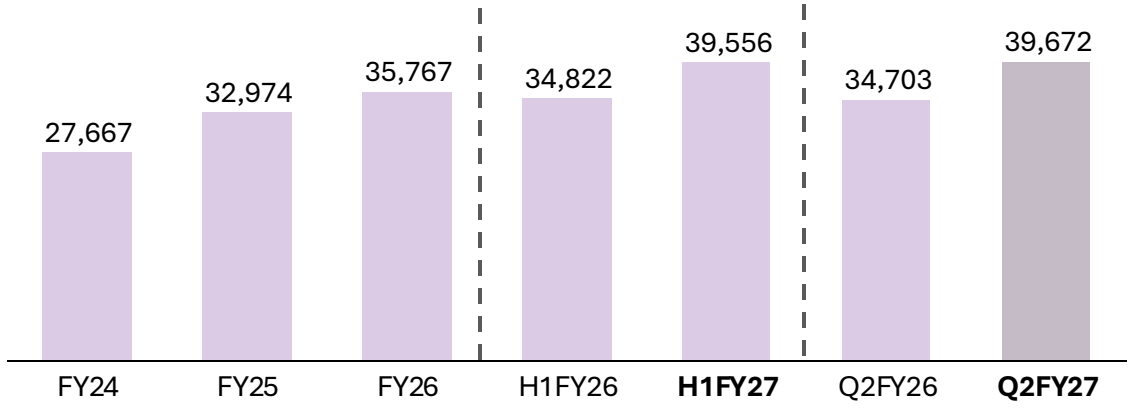

Achieved EBITDA breakeven within 8 months of inauguration, among the fastest breakeven timelines in India's tertiary care hospital sector.

Bed Occupancy Rate (%)

ARPOB (INR per day)

ILS Raipur Hospital

158 Bed ,Quaternary care hospital commencing its operations from May 2025, at Pachpedi Naka, serving a large catchment across Raipur, Bilaspur, Durg and Bhilai

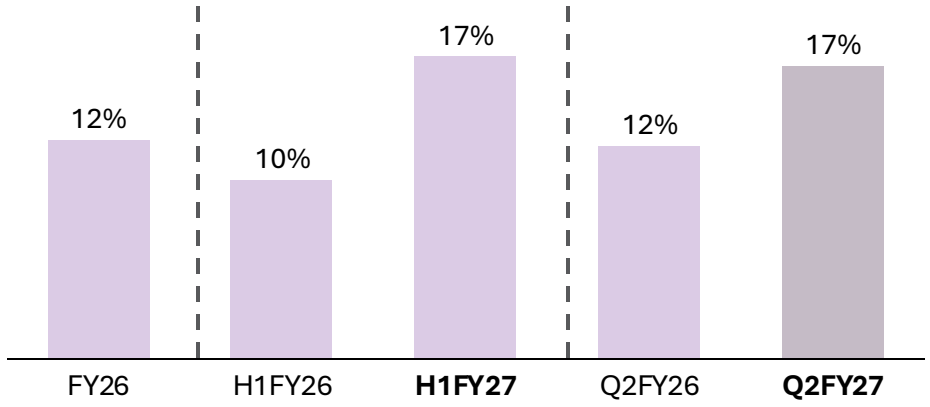

The Renal transplant program is commenced and chemotherapy & oncology surgeries fully operational

Progressive expansion into advanced oncology care and license received for liver transplant services

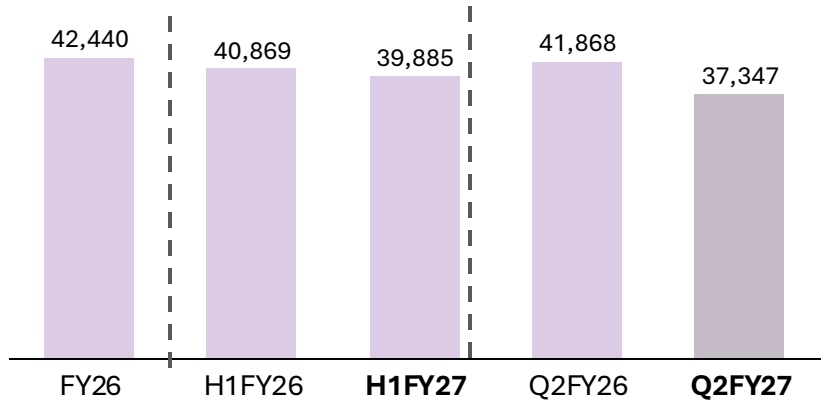

High-end clinical infrastructure, including 3 Tesla MRI, cardiac catheterization lab, and dual-source CT scanner, enabling precision-led care

Bed Occupancy Rate (%)

ARPOB (INR per day)

Our cutting-edge investments

Robotic assisted GI Surgery

MAKO – Orthopedic robot for joint replacement

3 Tesla MRI and Cath Lab Facilities

Well- equipped ICU’s and NICU’s

Radiation and oncology

State-of-the-art Operation theatres

Technology-Enabled Healthcare Innovation

SPARSH – Healthcare at home for senior citizens

A home healthcare service for senior citizens, offering medical support and personalized care for an affordable annual fee of INR 500. The plan includes monthly doctor visits, routine checks, and discounts on OPD, IPD, diagnostics, and physiotherapy. It provides free sample collection, report delivery, complimentary ambulance (within 5 km), and priority admission

ILS-My Health app enhancing patient convenience

a user-friendly mobile application that enables seamless self-service appointment booking, real-time access to medical records, and instant hospital-related information without human intervention

HMIS enhancing efficiency and patient care

Hospital Management Information System to create a comprehensive digital framework for managing electronic medical records

Advancing healthcare through cutting edge technology

Installed cutting-edge robotic surgical technology in Salt Lake and Howrah Hospital with 750+ robotic surgeries successfully performed from the robot in Salt Lake.

Emerging Markets, Proposition & Path Ahead

Emerging Opportunities in Industry (1/2)

High – Multiple Growth expected

Attractive **20x–30x EBITDA** valuations amid strong growth in India's healthcare market.

Medical Tourism growth corridor

Eastern India is emerging as a **hub for international patients** from Bangladesh, Nepal, Bhutan with its market expected to reach **$13.42 billion by 2026**.

Policy-Backed

INR 99,858 crore healthcare outlay by govt., including Ayushman Bharat and NHM is accelerating demand for more quality-focused health care.

Untapped Rural Healthcare demand

Large gaps in healthcare access in remote regions create **scope for infrastructure development** and outreach programs.

Medical Devices- Scalable growth Market

Technology-enabled hospitals in Tier-2 and Tier-3 cities stand to capture outsized growth as India emerges **as a top-20 global healthcare market for medical devices**

Digital Health Scale- Up Potential

Growing **digital adoption** enables hospital apps to deliver telemedicine, AI diagnostics, and remote monitoring, **enhancing access and lowering costs.**

Emerging Opportunities in Industry (2/2)

Global Health-care demand

The global healthcare market is projected **to reach $ 665.37 billion by 2028**.

Work Force shortage

Persistent **shortages of doctors and nurses** are accelerating the shift toward organized healthcare platforms that can attract talent, standardize care, and scale efficiently

Less Supply & Affordability Gap

India's **~3 million bed shortfall,** combined with rising **disposable incomes,** supports a long-term expansion opportunity for scalable, affordable hospital networks

Government led healthcare infra- development

PM-ABHIM is driving **large-scale investment in healthcare infrastructure and critical care**, supporting long-term capacity expansion and demand growth across the sector

Relief on life saving Drugs

Government **duty exemptions on 36 life-saving drugs** improve affordability and create a demand tailwind for the healthcare sector

Structural Demand Upside

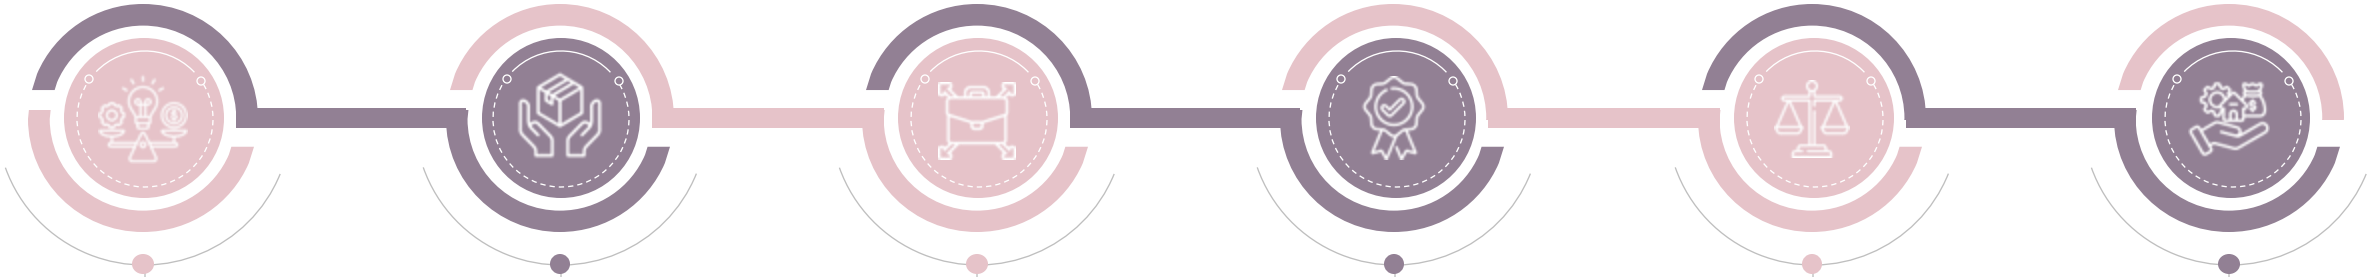

An **ageing demographic profile,** with median age projected at 38.3 by 2050, underpins sustained **demand growth for specialized, chronic, and tertiary hospital services**.

Key Investment Proposition

Eastern India Market Leadership	**Expand in Eastern India** by leveraging strong **regional brand equity** and capitalizing on **rising healthcare demand**.
Strategic Positioning	Leverage strategic locations in **dense residential area near transport hubs** to create easy patient access.
Optimized Price Value Mix	Calibrate pricing to deliver **high-quality, accessible care for middle-to-high income segments**, driving volume growth while protecting margins
High – Quality Payor Mix	Secure over 90% revenue from cash and insured patients, ensuring **minimal dependence on Govt schemes or Corporates**.
Capital- Efficient Execution	Deliver best-in-class execution with **industry-fastest break-even (8–10 months)** and **capex per bed at ₹7–8Mn**, well below industry norms and **net-debt free**.

Path Ahead

Unlocking Operating leverage

Target ≥70% bed occupancy across mature hospitals through disciplined capacity utilization, equipment optimization, and phased expansion

Next-Gen Care Delivery

Robotic surgery integrated as part of a technology-enabled care platform, complemented by the adoption of advanced medical innovations

Rapid Capacity Expansion

Scale to 1,000 beds within two years through strategic expansion in Tier I and Tier II Eastern India markets

Quality- Led Returns

Maintain long term ROE and ROCE ~ 25% alongside ongoing enhancements in care quality and patient

Balanced specialty mix

To have doctor-agnostic & broad specialty platform along with diversified case-mix helping in introducing new services as per the demand

Asset-Light Expansion

Rapid scale-up with low capital intensity through asset-light models that drive faster expansion with disciplined risk and minimal balance-sheet strain

Short- term Outlook

Strategic Expansion Outlook

- **Jamshedpur Hospital:** MoU signed for a **155-bed** facility with **INR 75 crore** investment, targeted commissioning by end-FY27.
- Planned entry into Tier II cities (Uttar Pradesh, Assam, Odisha) and select Tier I locations in Eastern India.
- **Land and building funded by developers;** operations run on fixed rental arrangements, enabling capital-efficient scaling and faster ROCE accretion

Operational & Clinical Capability Enhancement

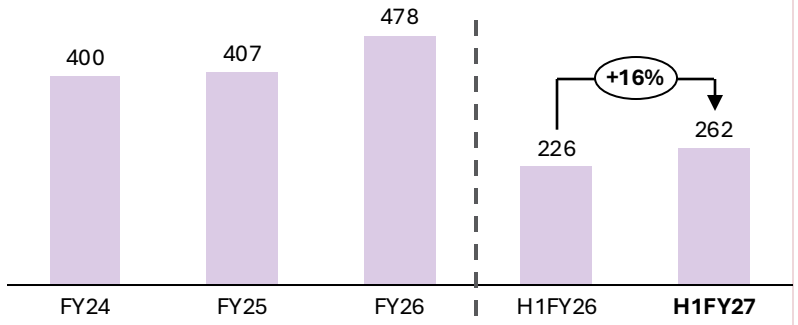

- **Agartala**: Launched Comprehensive Cancer Care (PET scan + Linear Accelerator), making it the only integrated oncology unit in Tripura.
- **Howrah:** Commenced robotic knee replacement surgeries, expected to increase ARPOB and reduce ALOS.
- **Occupancy Upside:** Targeted ramp-up at Agartala and Howrah from ~55% to 70–75%, unlocking margin expansion.
